SourceamaxAsia Co., LTD

540 Koh Pich Street, Khan Chamkarmorn,
Phnom Penh, Cambodia.
Email: contact@sourceamax.asia

Dear Mr. Saren Sim,

I am writing to express my strong interest in the **Web Developer Intern** position at **Sourceamax Asia Co., LTD**. I learned about this opportunity through the ERO team at **Passerelles Numériques Cambodia** (PNC), and I am enthusiastic about the chance to apply my technical skills and grow professionally within your team. Currently, I am a second-year student at PNC, pursuing an associate degree in Computer Science, and I am on track to complete the program soon. This internship aligns perfectly with my academic background and long-term career aspirations in web development.

At PNC, I have contributed to a wide range of hands-on projects, including a Music Club design, a Bakery website, an Automated Document Generation system, Linux server deployment, an E-commerce website, and a Cafe Shop Management System. Through these experiences, I have developed solid technical skills in HTML, CSS, Bootstrap, JavaScript, Figma, PHP, MySQL, Python (Algorithms), Vue.js, Laravel, and Object-Oriented Programming. I am also proficient in version control using GitHub and have deployed several web applications using modern hosting platforms such as Vercel and Netlify. Additionally, I have experience with project management tools like Jira, which have helped me stay organized and work efficiently in team-based environments.

Beyond my technical abilities, I have cultivated essential soft skills such as communication, leadership, teamwork, time management, and problem-solving. I thrive in collaborative environments and enjoy contributing to shared goals while continuously learning from others. My enthusiasm for coding and eagerness to gain real-world experience make me a strong candidate for this internship opportunity.

Thank you for taking the time to consider my application. I would welcome the opportunity to further discuss how my skills and experiences can contribute to the success of **Sourcemax Asia Co., LTD**. I look forward to hearing from you soon.

Sincerely,

Soda Morn

EDUCATION

2024 - Present

- Pursuing Associate Degree,
Passerelles Numériques Cambodia
(PNC) Major : Computer Science

2020 – 2023

- High School Certificate Kralanh High
School, Siem Reap

TECHNICAL SKILLS

- HTML
- CSS
- SASS
- Tailwind CSS
- Bootstrap 5
- JavaScript
- Chart.js
- PHP
- Node.js
- Python (Algorithm)
- Database (MySQL)
- OOP (TypeScript)
- Vue.js
- Laravel
- Data Analytics with Power BI

PROFILE

My name is **Soda Morn**. I was born on November 23, 2005, in Siem Reap, Cambodia. I enjoy learning new things and practicing my skills. I believe that teamwork, idea-sharing, and continuous improvement are key to helping a company grow and succeed.

WORK EXPERIENCES

● School Projects

Cafe Shop Management System（**Feb 10, 2025 – May 02, 2025** ）
Role: Scrum Master

- Collaborated with a team of five to design and develop a Café Shop Management System website.
- Enabled administrators to analyze revenue, profit, and expenses.
- Developed inventory tracking to identify low-stock and out-of-stock items.
- Enhanced restocking processes for efficient inventory management.
- Technologies: **HTML**, **CSS**, **Bootstrap**, **Tailwind CSS**, **JavaScript**, **Chart.js**, **PHP**, **MVC structure**, **XAMPP**, **Database (MySQL)**, **Figma**, **Jira**, **GitHub**.

E-commerce website（**Jan 14, 2025 - Jan 29, 2025**)
Role: Team Lead

- Contributed to a team of three in developing an e-commerce website.
- Designed and developed a visually appealing e-commerce website with a user-friendly interface.
- Integrated a streamlined purchasing process for efficient transactions.
- Technologies: **HTML**, **CSS**, **Bootstrap**, **JavaScript, Ajax, Firebase, localStorage, Figma, GitHub, Netlify, and Vercel**.

Deploy website on Linux server（**Dec 12, 2024 - Jan 05, 2025**)

- Designed and implemented the website using WordPress.
- Deployed the site to AWS via command-line operations using MobaXterm.
- Technologies: **WordPress, PHP, Apache, XAMPP, MariaDB, Ubuntu**, **AWS**, **EC2**, and **MobaXterm**.

Automated Document Generation（**Nov 18, 2024 - Nov 28, 2024**)
Role: Team Lead

- Collaborated with a team of three to design and develop an Automated Document Generation tool.
- Automated the generation of documents, including certificates, transcripts, and association letters.
- Integrated Excel data processing to dynamically populate document templates.
- Technologies: **Tkinter**, **os**, **docxtpl**, **docx2pdf**, **PIL**, **openpyxl**, **pandas**, **datetime**, **algorithms** in **Python, Figma, and GitHub**.

Bakery shop（**Jun 18, 2024 - Nov 04, 2024** ）
Role: Developer

- Contributed to a team of three to create a static website for a bakery shop.
- Designed an appealing user interface by applying thoughtful color schemes and layout structures.

SOFT SKILLS

- Creative
- Teamwork
- Leadership
- Critical Thinking
- Problem-solving
- Communication
- Time management
- Task management

TECHNICAL TOOLS

- Jira
- Linux
- AWS
- Canva
- Xampp
- Git/GitHub
- Netlify/Vercel
- Figma (Design)
- Postman / Thunder client
- MS Office (Word, Excel, PowerPoint)
- AI Tools (ChatGPT, Grok, etc.)

LANGUAGES

- **Khmer** : Mother tongue
- **English** : Intermediate (Speaking, Writing, Reading, and Listening)

INTERESTS

- Practicing coding
- Searching new technology
- Learning new technology
- Playing football

- Implemented website templates to enhance the site's visual aesthetics and user experience.
- Technologies: **HTML, CSS, SASS, Figma, Github, Netlify, Vercel, Pixabay,** and **Pinterest.**

Music Club Design　(Sep 21, 2024 – Nov 04, 2024)
Role: Team Lead

- Collaborated with a team of five to design a professional brochure for a music club.
- Conducted online research to gather creative inspiration and improve visual appeal.
- Technologies: **Figma, Pixabay, and Pinterest.**

WORKSHOPS

Product Owner　(Jan 18 & 25, 2025)

- The objective of this workshop is to gain knowledge of Jira, learn how to create User Stories, and understand user requirements effectively.

UX/UI Design (Feb 07 & Mar 14, 2025)

- The purpose of this workshop to understand the design flow, including prototyping and gathering user requirements, and to gain insight into design concept.

Data Analytics (Mar 19, 2025)

- This workshop focuses on data visualization using Python and Power BI, along with understanding the data analysis workflow and core concepts of data analysis.

Project Management (Feb 08, 2025)

- The purpose of this workshop is to provide a basic understanding of Agile methodology, demonstrate how to use tools such as Jira and GitHub, and explain project management techniques including team division and Jira workflow processes.
